

English

By reading Rhythm of the Rain by Grahame Baker-Smith and Ice Palace by Robert Swindells, the children will:

Use the text, and its wonderful illustrations, as inspiration to write expanded noun phrases and poetry.

Explore pronouns and fronted adverbials during grammar sessions.

Write narratives inspired by Ice Palace by Robert Swindells.

Geography

By answering the question 'Why are rivers important and how do humans influence them?' the children will develop their:

- Geographical skills of investigating places, space and place and communicating in geography.
- Knowledge of river features.
- Knowledge of the importance of the River Nile, River Amazon and River Thames.
- Knowledge of human and physical features along a river.
- Use of 4-figure grid references.
- Knowledge of flooding and river pollution.

P.E.

This term the children will be learning coordination, balance and footwork, improving their skills of:

- Balance with matching pairing/mirroring
- Balloon challenges to develop control and coordination
- Develop my perseverance through team games and cooperatively achieve goals.

DT

This term we are developing our knowledge of food hygiene, as pupils investigate the types of biscuits on sale and their target audience. The children will be designing their own biscuits and advertising before evaluating their designs and biscuits.

School Value Respect

We will be learning about the importance of demonstrating respect to others in school, to the wider community and how we can show respect to others.

Where Children Come First

PHSE

This term we will be discussing relationships with our friends and family

- How people's behaviour affects themselves and others
- That everyone should feel included, respected and not discriminated against.
- To explore stereotypes in fictional characters and think about how these might influence us .

Maths

This term we will be exploring the following two areas:

Measurement, Length and Perimeter

Converting measurement: mm, cm, km, m
Adding and subtracting length
Calculating perimeter of rectangles and rectilinear shapes.

Multiplication and Division

Multiplying and dividing by 10 and 100
3, 6, 9 and 7 times tables.
Reasoning and problem solving using the above.

Computing

- This term children will be learning to Code. Their learning will focus on:

Exploring different object types in 2Code.
Using a background and objects to create a scene.
Planning an algorithm for their scene.

The children will also explore computer aided design during their DT unit about biscuits.

Religious Education

This term we will be continuing our learning of the Hindu faith. We will deepen our understanding of how Hindus' show their faith, what is important to Hindus and who is important to them.

±

Science

This term we will be learning about solids, liquids and gasses. We will learn:

- That materials can change their state when temperature changes.
- That some changes of state are reversible.
- That water flows around the water in a continuous process call the water cycle.
