

English

Stone Age Boy by Satoshi Kitamura

This term we will be reading 'Stone Age Boy'. The children will be focusing on retelling the narrative in the perspective of another character, in order to do this they will work on key grammar concepts such as using inverted commas and using pronouns to stand in place of nouns.

Later in the term the children will complete their own independent writing taking on the role of a Stone Age girl who is introducing a modern day boy to their way of life.

History

This term the children will be learning about life in the Stone Age.

We will work towards this by answering these questions:

- What is prehistory?
- What was life like during the Palaeolithic period of the Stone Age?
- What was life like during the Mesolithic period of the Stone Age?
- What was life like during the Neolithic period of the Stone Age?
- How and why did Stone Age people migrate?

P.E

This term the children will be focusing on:

Develop fundamental movement skills and apply them to help develop the skills required in a range of games and activities.

Develop social skills to be able to show respect by listening to others' ideas and be happy to share their own ideas.

Art

Collage

This term the children will be working towards creating their own collage of a mythical beast that they will have the opportunity to design. They will also be exploring mark making and different ways to make different patterns using paint, they will use their own patterns as the materials to create their collage.

Music

More musical styles

Children will consider how music and all its styles have shaped our world around us.

School Value :Determination

This term we will be focusing on determination, we will ensure to encourage all children to try their best in order to be successful with their learning.

Where Children Come First

P.S.H.E

What makes a community?

We will be considering how we belong to different communities, what is meant by a diverse community, how the community helps everyone feel included and how we should respect towards people who may live differently to us.

French

Fruits

This term pupils will learn to names of some common fruits and vegetables in French.

Maths

This term in Maths we will:

Fractions

Understand what the numerator and denominator are.
Know the difference between a unit and non-unit fraction.
Compare fractions.
Order fractions.
Recognize equivalent fractions.

Mass and capacity

Measure in g and kg.
Recognise equivalent masses.
Measure capacity and volume in ml and l.

Computing

Presenting using PowerPoint.

This term the children will be learning how to create presentations using PowerPoint. They will be...

Making a simple presentation from a blank page.

Learning how to add images.

Adding animations to make their presentation more interesting and interactive.

Religious Education

Christianity and Churches

This term we will be working towards answering the main question:
Why do people pray? We will be considering...

When did Christianity first come to Britain?

Why is St Paul's Cathedral an important building?

Why did Catholics build lots of new churches in England?

Science

Rocks and Fossils

Our enquiry for this term is: Are all rocks made up in the same way?

We will work towards this by answering the following questions:

- What is the Earth made up of?
- How are different rocks formed?
- How are fossils formed?

We will also be learning about the Chinese polymath **Zhang Heng** and what he discovered.
